Dear Traffic Committee Members,

I am writing to support the citizens' request to install stop signs at the intersection of Beachway Drive and Blair Road. Cars travel at excessive speeds on Beachway Drive and this is of concern to the school community because many of our students who walk to school use this crossing. In addition, teachers often take children for walking field trips through the neighborhood and have to be extra cautious on this street. We feel it is in the safety interest of our students to have these stops signs installed.

I hope you will give this request serious consideration. If you have further questions, feel free to contact me at 703-575-6800.

Sincerely,

A handwritten signature in cursive script that reads "Jean R. Frey".
